ABOUT ME

I consider myself a communicative, hard-working and proactive person. I like working in a team and on projects that allow me to acquire new knowledge.

SKILLS

Java

Python

JavaScript

SQL

HTML

Haskell

C/C++

LANGUAGES

- Portuguese
- English

EDUCATION

Master in Software Engineering 2023 - Present
University of Minho, Braga

Master's Profiles:

- Software Development, Validation and Maintenance (SDVM)
- Computer Graphics (CG)

Degree in Software Engineering 2020 - 2023
University of Minho, Braga

RAW 2024

Students of the Software Engineering Experimentation course were asked to carry out a project to evaluate the energy consumption of different programming languages using benchmarks. The project developed by me and some colleagues stood out and ended up being chosen to represent the institution at RAW 2024, in Slovenia.

AREAS OF INTEREST

I am particularly interested in working in software development, namely, developing mobile applications. However, I am available to work in any area and ready for new challenges.
